iPod Shuffle Driver Setup for Mac For Windows XP, Vista, and Windows 7, 8, 10, can be your own data directly on the hard drive or attached external hard drive . A: Please follow the steps in my other answer. See the "Solution" section for more information. Solution You do not have to install any specific drivers to use the iPhone/iPod. All you need is iTunes for Windows and iTunes on the computer you are using. This means that there is no need to download any software, or pay for a driver! Use the following steps to change your iPod/iPhone from your computer. Connect your iPod/iPhone to your computer. Open iTunes on your computer. Click on your iPod/iPhone at the top. Click on Preferences. Click on the "General" tab. Make sure "Sync Music to the iPod" is checked. Select "iPhone" from the drop-down menu next to "Sync Music to." If you wish to sync videos, photos, or any other content, select "Sync iPad Videos, Photos, iTunes Store Content to the iPod/iPhone." Adjust the Volume and other settings for your iPod/iPhone. Adjust the volume on your iPod/iPhone to your liking. Check the box next to "Sync to my computer" Click on "Options." From the menu on the left hand side, select "Import Settings from Another iPod/iPhone." Click on the iPod/iPhone you want to use. In order to upload your pictures to your iPod/iPhone, you will have to go into the Options and disable the "Turn off the camera" option. In a new paper published in the journal Nature Scientific Reports, a team of researchers led by scientists from University College London (UCL) and the University of Sussex present the first comprehensive analysis of the ecosystem's early evolution. The analysis is based on genetic data from four different species of Cetaceans -- the largest and most diverse group of marine animals -- which were all domesticated in the same area of the Pacific Ocean from 3 to 2.6 million years ago. "This study combines the largest and most detailed datasets of genomes ever assembled from the Cetacean family," says Dr Jonathan Crisp of UCL's Department of Zoology. " 2d92ce491b
