(although maybe that status has been usurped by Tony Blair) Most importantly, I have seen no evidence that he would lead the country out of the mess that the present unelected government has produced. I'm sorry, but I think you can do a lot better than someone who has clearly taken the decision to further his career. I mean, there's no reason why you can't be a dictator, and a cuddly one at that, but an authoritarian dictator who tries to enforce his will on the people (and his party) is unacceptable.
