Thunder: Single Player Missions
We're really proud that the "Single
Player Missions" section is still one
of the most popular parts of the
game. And we've definitely not
forgotten about our faithful players!

We have already released more than 25 different missions for you to try out, and today we are going to tell you about a new update to the "Empire at War" Mission. You are to be congratulated for deciding to accept the mission order. Thus, the war between the forces of the United States and Japan is about to be once again begun! I need not tell you that your soldiers have no rest and no time to explore the country. Only you know that the Japanese forces are in a very strong position and are prepared to use their numerical advantage in order to defeat your

military might. The objective of the mission is to protect the US forces by destroying the Japanese military forces on the territory of the Philippines. But the Japanese forces are very strong, and they will use their numerical superiority in order to thwart your plans. Your forces must not be caught by surprise and must immediately attack the Japanese forces. The Japanese forces should not go beyond the limits of the given mission. All of your victories will help you to increase the forces of the US forces and reach the target goal. But I need to warn you

that the Japanese forces are very powerful. You can expect a tough fight with these guys. If you have won several consecutive battles, you will be able to transfer funds, which will help you to recruit more
